

Senior Design Website Design

We will link to your wiki on your gitlab page. Here, you can pretty much design how you want your site to look like. However, there needs to be a few key components:

- A home page
- About Us page
- Documents page
- Meeting Reports (by date)

Since, this is already on the repo – no need for a separate Repository link.

Here are a few examples (all of them at <http://seniord.ece.iastate.edu/projects>)
